**Subject:** START deploying to Farmington to support water sampling

We have a multi region ER in progress originating in CO and impacting NM, Navajo Nation and UT.

Have not had a chance to write. We have asked START to head out to Farmington to coordinate w Navajo EPA on DW sampling. Joe D is working up a plan to send 2 from Tempe AZ. I have not seen a CPW but they may be on the way. Also, STARTs will be using the Farmington, Navajo office space for the time being.

Randy is helping w coordination and will serve as a response point of contact. Rob Wise will deploy to Durango to checkin with the ICP. His role will be determined but for now he's a liaison between field efforts and ICP. More to come. Thanks!
